“LaTex”

09.11.2018

Organised by

**Department of
Electrical and Electronics Engineering**

OBJECTIVE

LaTeX, a freeware, is an extremely powerful markup language for creating structured documents. It is particularly well suited for documents containing mathematics, but can be used for any document. Those whose publications involve a large number of mathematical equations often use LaTeX rather than any word processor. It is the standard writing tool in the mathematical sciences. LaTeX provides a facility for PDF output that creates you to easily share your research with other people who do not have LaTeX installed.

TOPICS

- Introduction to LaTeX
- Basic document preparation
- Advanced document preparation
- Tables and Graphics
- Typesetting of Mathematical equations
- Preparation of thesis and research articles
- Automatic generation of bibliographies and indexes.
