Coimbatore - 641 032
Autonomous | Affiliated to Anna University, Chennai
Accredited by NAAC with 'A' Grade | NBA (ECE, EEE, CSE, MECH & IT)

<u>Institutional Distinctiveness</u>

Training and Placement

The Institution has made a remarkable growth in placements in the last decade by a strong and dynamic Training and Placement Cell. It is catering to the needs of industry by ensuring that the students meet the desired skill set level.

The placement office support the Team of HR form the industry to conduct the pre-placement talk, written test, Group Discussion and interview in effective manner. The placement cell takes effort in guiding the students for their successful career. The institution has active MoUs & Centers of Excellence with various industries. The institution is visited by various Multinational companies year after year for placements and hence the college had a blistering placement record.

The process of training and placement begins from the first year where the students are oriented about the requirements and expectations of the industry. The students are explained about different streams of opportunities like IT service jobs, IT product jobs, and core engineering jobs. The students are also explained about the training activities which will be planned for their batch like English, Aptitude and Technical components. During the second year, the focus is on the development of the proficiency in communicative skills (Both written and oral) and in the programming practices. As there is plenty of opportunities that are available in IT and ITES streams, the students are given special attention to refresh their computer programming skills. As this is an extensive activity, the students are given training after the regular classes. The industry need programming areas like C programming, OOPs, Data Structures, Algorithms, DBMS, Operating Systems and Networks are refreshed through the training. A series of practice and assessment tests are conducted for both aptitude and programming and the performance of the students are continuously monitored.

Steps in conducting a placement drive.
- The placement cell contacts various companies and invites them for the recruitment drive.
- The placement cell is approached by the companies in response to the invitation and the details of the final year students are shared as per the requirement of the companies and the dates for placement drive are finalised with mutual convenience.
- On the day of placement drive, the necessary arrangements for the pre-placement talk, written test, online test, Group Discussion and Interview are arranged at campus.
- After various short listing stages, the students are finally interviewed and the list of shortlisted candidates is shared with the placement cell. Then results are announced by the placement office.
