CHIEF PATRONS:
Dr. R. Vasanthakumar,
CHAIRMAN.

PATRONS:
Er. K. Murugaiah,
CEO.

CHAIRPERSON:
Dr. V. Kumar Chinnaiyan,
PRINCIPAL.

ADVISORY COMMITTEE:
Dr. P. MURUGESWARI,
HOD - IT.

STAFF IN CHARGE:
Ms. S. SUGANYA,
ASSISTANT PROFESSOR - IT

EDITORIAL IN BOARD:

Programme Educational Objectives

- PE01: Graduates will be able to comprehend mathematics, science, engineering fundamentals, laboratory and work-based experiences to formulate and solve problems in the domain of Information Technology and acquire proficiency in Computer-based engineering and the use of computational tools.
- PE02: Graduates will be prepared to communicate and work effectively on multidisciplinary engineering projects and practicing the ethics of their profession.
- PE03: Graduates will realize the importance of self-learning and engage in lifelong learning to become experts either as entrepreneurs or employees in the field to widen the professional knowledge.

Programme Outcomes (POs)

- P01: **Engineering knowledge**
Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- P02: **Problem analysis**
Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- P03: **Design/development of solutions**
Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- P04: **Conduct investigations of complex problems**
Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- P05: **Modern tool usage**
Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

Department of IT

P06: The engineer and society

Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

P07: Environment and sustainability

Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

P08: Ethics

Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

P09: Individual and team work

Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

P010: Communication

Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

P011: Project management and finance

Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

P012: Life-long learning

Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Program Specific Outcomes (PSOs)

- PS01: Ability to organize an IT infrastructure, secure the data and analyze the data analytic techniques in the field of data mining, big data as to facilitate in solving problems.
- PS02: Ability to analyze and design the system in the domain of Cloud and Internet of Things.

VISION

To provide reliable and modern technology resources to the faculty and students to develop the competence in Information Technology and to endure with the rapidly changing world to serve the mankind.

- *Imparting technical knowledge through innovative teaching and research for budding professionals.*
- *To equip the students with strong fundamentals, programming and problem-solving skills with an exposure to emerging technologies and inculcate leadership qualities with a passion to serve society.*

MISSION
